

AMENDED

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office FEB 22 1991
 Returned to applicant for correction MAR 29 1991
 Corrected application filed MAY 14 1991
 Map filed MAY 14 1991

The applicant JOHANNES G. NOWAK
4111 Tahoe Drive, of Anchorage,
Street and No. or P.O. Box No. City or Town
Alaska 99515, hereby make application for permission to appropriate the public
State and Zip Code No.
 waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
 copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is .10 second-feet
One second-foot equals 448.83 gals. per min.
 (a) If stored in reservoir give number of acre-feet
3. The water to be used for Quasi-Municipal
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated N/A
 - (b) Stockwater, state number and kinds of animals to be watered N/A
 - (c) Other use (describe fully under "No. 12. Remarks") Domestic (4) S.F. Dwellings
 - (d) Power:
 - (1) Horsepower developed N/A
 - (2) Point of return of water to stream N/A
5. The water is to be diverted from its source at the following point Being N 66°21'54"W 732.41 ft. from
the NW corner (1/16 Cor.) of the SW ¼ of the NE ¼ of Describe as being within a 40-acre subdivision of public
Section 31, Township 19 South, Range 60 East, MDB&M, where the east line of said
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
section bears S 00°08'30"W.
6. Place of use The N ½ W ½ NE ¼ SW ¼ NE ¼, Section 31, Township 19 South, Range 60
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
East, MDB&M, Clark County, Nevada
7. Use will begin about January 1st and end about December 31st, of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
A proposed 6" dia. well 400 to 600 ft. deep
specifications of your diversion or storage works.) equipped with a 5 hp pump and 2" line with
totalizing meter connected to a 5,000 State manner in which water is to be diverted, i.e. diversion structure, ditches and
gallon storage tank which feeds a pressurized tank through a boost pump and feeds
flumes, drilled well with pump and motor, etc. 4 lots through a 2" distribution line.
9. Estimated cost of works \$15,000 to 20,000

10. Estimated time required to construct works 12 months from time of approval
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use Approximately five years to construct the delivery system and build the single family units.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Four (4) single family dwellings on approximately 20,000 s.f. lots. The proposed well would be operated under a quasi-municipal use. The total consumptive use for four lots is estimated to be 1.460 million gallons annually or 4.48 ac. ft.+. Four single family units will not exceed 4,000 gpd. Peak demand will not exceed 45-60 gpm for one to two hours on peak days.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second, but not to exceed 1.46 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 2, 1993

Proof of completion of work shall be filed on or before September 2, 1993

Application of water to beneficial use shall be made on or before August 2, 1996

Proof of the application of water to beneficial use shall be filed on or before September 2, 1996

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed **NOV 03 1994**

Proof of beneficial use filed _____

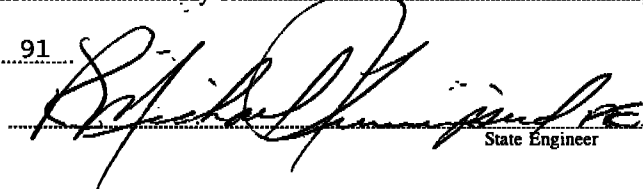

Cultural map filed _____

Certificate No. _____ Issued _____

IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.
 State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 2nd day of August,

A.D. 19 91

 State Engineer
